Senior Designer Digital Art Director

At Eureka! Design Consultants | London

Creativity

- Conceptual and strategic marketing thinking
- Developing and visualizing creative concepts across platforms
- Executing design solutions from initial concepts through to artwork

Project Management

- Leading the design process from brief to delivery:
 1. Compiling responses and cost proposals to client briefs
 2. Planning – budget, cost, team building and commissioning, time-schedule...
 3. Managing the client's expectations throughout campaigns and ensure production stays on strategy, on brief and on brand
 4. Leading the technical team to ensure projects run smoothly
 5. Experience presenting to, or communicating concepts to clients

Personality

- Conceptual thinking and creative flair
- Positive and proactive problem solver
- Excellent design and new technology trends awareness
- Incredible attention to detail and extremely organized
- Work well independently or as part of the team

Skills

Print & Brand Design

- Strong typography & layout skills (brochures, posters, packaging...)
- Solid experience developing brand concepts, visual identity systems & guidelines
- Good Knowledge of the print production

Web & Digital Design

- A strong understanding of intuitive interaction, UX principles & navigation principles
- Solid knowledge of grid system frameworks and layouts for responsive design
- Create sketches, concepts, user journeys, site maps, wireframes and navigational prototypes
- Produce and deliver artworks for website, social media, banners ads, email campaigns...
- Experience managing a team of developers
- Develop, lead and execute online marketing strategy
- Experience hosting set-up and site deployment
- Experience in SSL Protocol, SEO, Google Analytics and Referencing

Moving Image

- Organizing and supervising shoots
- Good knowledge of shooting equipment (camera, lenses...)
- Expert knowledge in video editing and motion animation (Moving Brand and titling)
